

Modeling of Regional Climate Change Effects on Ground-Level Ozone and Childhood Asthma

Perry E. Sheffield, MD, MPH, Kim Knowlton, DrPH, Jessie, L. Carr, MPH, Patrick L. Kinney, ScD

Appendix A

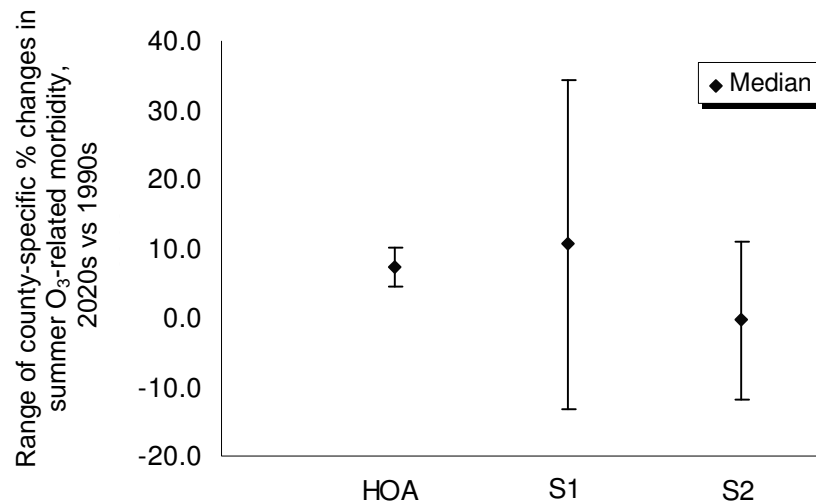

New York State map with 14 counties of metropolitan New York City circled

Adapted from <http://www.censusfinder.com/mapny.htm>

Appendix B

Range (median, 95th percentiles) of projected county-specific percentage changes in summer O₃-related morbidity under HOA and sensitivity analyses (S1, S2) for asthma emergency department visits among children aged 0–17 years

HOA: climate change only (using A2 IPCC SRES); S1: HOA plus future population projections; S2: O₃-precursor changes only without climate change and population projections

HOA, health outcomes assessment; IPCC SRES, Intergovernmental Panel on Climate Change Special Report on Emissions Scenarios
